

DRUMS *with MOLDED-IN HANDLES*

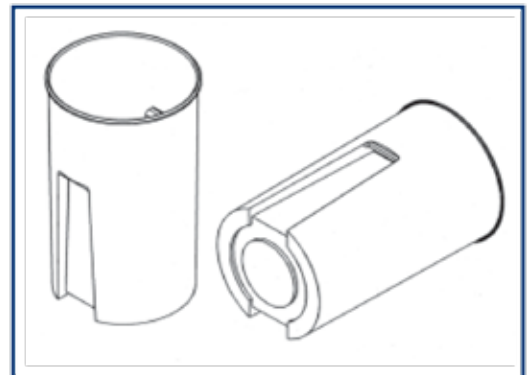

- Made from tough, impact resistant polyethylene.
- Molded handles (on both sides of drum) allow for easy handling of materials.
- Seamless interior; easy to clean.
- Easily accommodates bags or liners.
- Can be manufactured in a wide selection of FDA compliant translucent and opaque colors.
- Standard drum wall thickness is 0.180".
- Wall thickness can be modified to accommodate a more demanding application.
- Drums can be produced with FDA compliant antistat material to reduce static build up.
- Meet or exceed USDA and FDA requirements.

- Lever lock lids with plastic lever lock rings or dust covers are available.
- Lever locking rings are corrosion proof and provide tamper resistance.
- Lid design facilitates stacking without any shifting.
